

OWDT

The Office of Workforce Development & Training (OWDT), formerly the Office of Education and Training for Addiction Services (OETAS), has responded to the needs of beginning and experienced behavioral health practitioners by providing high quality continuing education training for over 30 years.

OWDT sponsors and provides instructor led courses, workshops, conferences, customized trainings, and technical assistance to community based organizations, behavioral health providers, and public health agencies throughout the state. Best practices are utilized in developing our wide array of basic to advanced trainings and are customized to fit the needs of the public behavioral health workforce audience. OWDT collaborates and partners with numerous organizations to assist with continuing education efforts including the awarding of Continuing Education Units (CEUs), conference and event planning, marketing and event execution.

OWDT Custom Training

OWDT can provide training for your program, your county health department, or to a network of several organizations or jurisdictions. We will come to your facility to provide the same quality training with the same superior faculty that you have come to expect from our training office.

You choose the course that best meets your needs. Our three day courses are 21 hours with 21 CEUs awarded. We also offer two day courses (14 hours and 14 CEUs) and one day workshops (7 hours and 7 CEUs). CEUs are based on a 8:00 A.M. — 4:30 P.M. schedule.

With OWDT custom trainings, you provide the venue and the students and OWDT provides all the rest. We provide an instructor, the class materials, and the certificates. We can assist you in planning, every step of the way.

Advantages of OWDT Custom Training

You select the courses that will best meet the needs of your professional staff.

The course or 1 day workshop can be held locally at the venue of your choice.

You can invite whomever you would like to attend. Maximum class size is 30 individuals.

You can charge tuition.

Networking with other organizations to offer training can greatly reduce costs.

Custom Trainings can be very Cost Effective

- Save on travel expenses.
- Save on overnight expenses.
- Save on food expenses.
