

# Pikesville Health Services

Nurse Practitioner needed to complete intake process for outpatient substance abuse center. Medical staff will work closely with other counselors, nurses, and program physicians.

Flexible hours include an early morning start with plenty of time left to enjoy your afternoons and weekends.

Compensation is very competitive and negotiable.

## Responsibilities:

Our NP will consult and collaborate with Medical Director to plan and implement care according to Nurse Practitioner Guidelines.

Through continued collaboration with program leadership, you will take the lead in establishing comprehensive, quality operations as they apply to all medical practice activities within a medication assisted treatment environment.

The NP will be expected to maintain a professional standard throughout your department, adhere to treatment policies of the organization and take part in maintaining compliance with all regulatory and accreditation agencies.
