**MARYLAND MEDICAL ASSISTANCE PROGRAM**  
**Hospital Program Transmittal No. 222**  
**May 1, 2013**

**TO:** Hospital Providers  
Managed Care Organizations

**FROM:** Susan J. Tucker, Executive Director  
Office of Health Services

**RE:** Coding and Reimbursement for Dialysis Services in the Emergency Department of Hospitals

**NOTE:** Please ensure that appropriate staff members in your organization are informed of the contents of this transmittal.

---

For dates of service on or after July 1, 2013, the Maryland Medical Assistance Program will reimburse hospital providers for dialysis service rendered in the Emergency Department of the facility under certain circumstances. The Maryland Medicaid Program will reimburse for renal dialysis in the Emergency Department if it is an emergency. Emergency in this context means that the patient cannot be safely sent back to the community provider for the dialysis. Medicaid will closely monitor the claims for such services to ensure that hospitals are not routinely providing dialysis in lieu of free-standing dialysis facilities.

Attached is a list of the revenue codes that are to be used for dialysis services provided in the Emergency Department when billing the Maryland Medicaid Program. To review the billing instructions for hospital providers, go to the following website:
